

GENERAL INFORMATION		
1	<p>Learn about @US_FDA’s critical work to protect public health during the #COVID19 pandemic: www.FDA.gov/coronavirus</p>	
2	<p>Do you have questions for @US_FDA about #COVID19? Get answers and learn about what FDA is doing to prevent the spread of #coronavirus and minimize the impact to Americans: https://go.usa.gov/xvVEs</p>	
3	<p>Want to know what you can do to make a difference during the #COVID19 pandemic? Here are some ways you and your family can help: https://go.usa.gov/xvBhx</p>	
4	<p>One of the best ways to prevent the spread of infections like #COVID19 and decrease the risk of getting sick is by washing your hands with plain soap and water for 20 seconds. https://go.usa.gov/xv7KA</p>	
5	<p>Emergency use authorizations (EUAs) are one of several tools @US_FDA is using to help make important medical products available quickly during the #COVID19 pandemic. But what exactly is an EUA? Watch this video to learn more: https://youtu.be/iGkwaESsGBQ</p>	
6	<p>Whether you are a health care professional, consumer, or patient, you can report any observed or suspected adverse events for drugs used to treat patients who have #COVID19 symptoms. Learn more about the type of info you should report to #MedWatch: www.fda.gov/medwatch</p>	

FRAUD		
7	<p>There are currently no FDA-approved vaccines or drug products for #COVID19. You can report websites selling fraudulent medical products to @US_FDA: https://go.usa.gov/xvvUc</p>	
8	<p>Consumers should be extremely cautious of products claiming to treat #COVID19. While FDA is working with medical product developers to quickly advance the development & availability of a #COVID19 treatment, no FDA-approved treatment currently exists. https://go.usa.gov/xvvUc</p>	
9	<p>If you are aware of fraudulent #COVID19 test kits, you can help by reporting them to FDA's Health Fraud Program at FDA-COVID-19-Fraudulent-Products@fda.hhs.gov or https://go.usa.gov/xvww4</p>	
MEDICAL PRODUCTS		
10	<p>Currently there are no FDA-approved drugs specifically for the treatment of #COVID19. @US_FDA is working with drug manufacturers, researchers, and other partners to accelerate the development process for #COVID19 treatments. https://go.usa.gov/xvvv4</p>	
11	<p>#COVID19 is a disease caused by a #coronavirus, so antibiotics do not prevent or treat it. Remember to only take medications prescribed by a health care professional. https://go.usa.gov/xvvv4</p>	
12	<p>Did you know? @US_FDA has not authorized any #COVID19 test to be completely used and processed at home. On April 21, FDA authorized a test for home collection of samples to be sent to a laboratory for processing and test result reporting. https://go.usa.gov/xvvw9</p>	

13	<p>Miracle Mineral Solution does not cure #COVID19 and has not been approved by @US_FDA for any use. The solution, when mixed, develops into a dangerous bleach that has caused serious and potentially life-threatening side effects: https://go.usa.gov/xvvvZ</p>	
14	<p>If you get a rash or other serious reaction to a #HandSanitizer, call your health care provider and report the reaction to our #MedWatch Adverse Event Reporting program here: www.fda.gov/medwatch #COVID19.</p>	
15	<p>During the #COVID19 public health emergency, children may be home from school & you may have more #HandSanitizer accessible. Be sure to keep all hand sanitizer products out of reach of children, and contact poison control if swallowed at 800-222-1222 or www.poisonhelp.org</p>	
16	<p>Wondering if disinfectant sprays or wipes can be used on your skin to prevent the spread of #COVID19? The answer is no 🙅 Disinfectant sprays or wipes are not intended for use on humans or animals and should only be used on hard, non-porous surfaces. https://go.usa.gov/xv7aW</p>	
17	<p>Do not inject, inhale, or ingest disinfectant sprays or household cleaners; doing so is dangerous and may cause serious harm or death. If ingested, call poison control or a medical professional immediately. www.poisonhelp.org</p>	
FOOD		
18	<p>When grocery shopping, buying just 1 to 2 weeks worth of groceries at a time can help to prevent unnecessary demand & temporary food shortages during the #COVID19 pandemic. Find more tips on how to safely grocery shop from the @US_FDA website. https://go.usa.gov/xvvyk</p>	

19	<p>#COVID19 impacts many of our daily routines, including how we shop for & prepare food. As we adjust, it is important to think about how to eat healthy. FDA’s updates to the Nutrition Facts Label can help you learn more about the foods you’re eating. https://go.usa.gov/xvvdR</p>	 <p>The image shows a Nutrition Facts label on the left and a family of three (a man, a woman, and a child) sitting at a table eating together on the right. The label lists 230 calories and various nutrients. The FDA logo is visible in the bottom right of the family photo.</p>
20	<p>Grocery shopping concerns during the #COVID19 pandemic? We’ve compiled information on how to shop for food safely, assurances that there are no known permanent food shortages as distribution chains adjust, and how to maintain food safety at home. https://go.usa.gov/xvvyk</p>	 <p>The image shows a variety of fresh grocery items including a carton of milk, several red tomatoes, green apples, and a head of broccoli. The FDA logo is in the bottom right corner.</p>
21	<p>Food is a source of comfort, as well as nourishment for you and your family – especially during the #COVID19 pandemic. Watch this video with 12 tips for grocery shopping: https://youtu.be/3TtHg5XgZzl</p>	 <p>The image is a video thumbnail titled '12 Tips for Grocery Shopping During the Pandemic'. It shows a person wearing a face mask and pushing a shopping cart filled with groceries in a store aisle. The FDA logo is in the top left corner.</p>
22	<p>There is currently no evidence of human or animal food or food packaging being associated with transmission of #COVID19. Learn how to protect yourself and your family while shopping for & preparing food during the pandemic: https://go.usa.gov/xvvyk</p>	 <p>The image shows a man and a woman in a kitchen preparing food. They are standing at a counter with various fruits and vegetables. The FDA logo is in the bottom right corner.</p>
BLOOD		
23	<p>If you have fully recovered from #COVID19, you may be able to help patients currently fighting the infection by donating your plasma. Learn how to donate https://go.usa.gov/xvwdc</p>	 <p>The graphic features the text 'Coronavirus Update: FDA encourages recovered patients to donate plasma for development of blood-related therapies' next to a 3D model of a coronavirus particle. The FDA logo is in the bottom left corner.</p>
24	<p>Did you know? Respiratory viruses are not known to be transmitted by blood transfusion, and there have been no reported cases of transfusion-transmitted #COVID19 https://go.usa.gov/xv7a8</p>	 <p>The image shows a microscopic view of several red blood cells flowing through a blood vessel. The FDA logo is in the bottom right corner.</p>

25	<p>Every 2 seconds, someone in the U.S. needs blood. The #COVID19 pandemic has impacted the nation's blood supply because of factors such as cancelled blood drives. If you are healthy & feel well, consider donating. Learn more on @US_FDA's webpage: https://go.usa.gov/xv7a8</p>

TOBACCO

26	<p>Smoking cigarettes can leave you more vulnerable to respiratory illnesses, such as #COVID19. Find resources to quit smoking: http://smokefree.gov</p>	
----	---	--

27	<p>Smoking cigarettes is known to cause heart and lung disease, and people with underlying heart and lung problems may have an increased risk for serious complications from #COVID19. http://smokefree.gov</p>	
----	--	--

28	<p>Smoking can cause inflammation and cell damage throughout the body, and can weaken your immune system, making it less able to fight off diseases. #COVID19 primarily attacks the lungs and those with underlying lung disease are at increased risk of serious complications. http://smokefree.gov</p>	
----	--	--

Animals and Pets

29	<p>There is currently no evidence that animals are a source of #COVID19 infection in the U.S. Until we learn more about how this virus affects animals, treat pets as you would other human family members to protect them from a potential infection. https://go.usa.gov/xvxf4</p>	
----	--	--

30	<p>People have a lot of questions about pets and #COVID19. Here's the latest on the topic from @US_FDA: https://go.usa.gov/xvyed</p>	 An infographic on a dark blue background. On the left is a yellow silhouette of a person. In the center, a hand is being washed under a faucet with water droplets. To the right is a white surgical mask. On the far right, a white heart shape contains silhouettes of a dog and a cat. A small FDA logo is in the bottom right corner.
31	<p>It's always a good idea—but particularly during the #COVID19 public health emergency—to practice healthy habits around pets and other animals, including washing your hands before and after interacting with them. https://go.usa.gov/xvyed</p>	 A close-up photograph of a person's hands being washed with white soap suds in a stainless steel sink. Water is running from a faucet in the background. A small FDA logo is in the bottom right corner.
