ess coordinating with their insurance companies and local hospitals but this is unverified.

s, pharmacies, local public health, and other closed settings. Most community-based health care provider:

tion for Health Care Providers. [State of Nebraska COVID-19 Vaccination Plan](#) – just updated December 31

s are being vaccinated but there is a lack of clarity as to how they are determined. Providers are cor

tals to administer and I have confirmation that HME Rts have received vaccine but have not confirmed Del

or allocation for Gainesville, FL. Also note that both of these locations have Pharmacies in them which is

ing providers to contact pharmacies to coordinate vaccine but so far have no successful reports.

ntacting the state to be added to the notification list and then are contacted when they are to be sci

seen differently. If we tried in other localities as an HME only supplier I don't see being rejected for not

reduled. I know of only one DME that has been scheduled for vaccine and others that have been tol

being a healthcare worker, but it may take a solidified relationship to be included.
