

Documents in the Patient's File

Question

Is a DWO the same as a WOPD? Are the two interchangeable?

For the PT/OT evals and such, do they need to be signed off by Dr?

Answer

A WOPD is prior to delivery and a DWO is required prior to submitting the claim.

Only under the PMD policy is it required to have the physician concur and co-sign. It's not required for any other DME equipment.
