

We need your help during this CMS comment period!

CMS has opened a comment period for power seat elevation system coverage by Medicare for Group 3 power wheelchair users. This is an important step towards having Medicare coverage for all power systems. We need everyone who is affected in some way by the lack of coverage to leave a personalized comment about why coverage is important to them by March 14, 2023. Visit [rise4access.org](https://rise4access.org) to find out more and leave a comment!
